Webscape: Compare tech products honestly**Kate Russell's weekly review of websites and apps.**

[VersusIO](#) compares tech products by using official specifications from the manufacturer, stripping out subjective information like opinion and matters of taste.

[Universe Today](#) runs a YouTube channel hosting programmes and documentaries but they also hold regular Virtual Star Parties in Google Hangouts where contributors with telescopes train them on the skies.

[The Aspie Show](#) talks openly about Asperger's syndrome, celebrating the strengths it brings to the human mind rather than seeing it as a disability.

[Mind of Man](#) is an iOS app claiming to analyse the language, content and other stats gleaned from Twitter interactions to create a visualisation of your personality called a Mind Print.

[Social travel site Minube](#) has been popular through much of Europe and Latin America for some time and has just added English-language versions.

Google's [100,000 Stars experiment](#) creates a 3D graphic of our galaxy, zooming through the solar system before skirting the edge of the Milky Way.

If you prefer you maps a little more down to earth, [Nokia's turn-by-turn navigation](#) and social features is being released for Apple's iOS.
